Technical Skills

Languages: JavaScript, TypeScript, Java

Frontend: HTML5, CSS3, React, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs, JWT, RBAC, ABAC, OAuth, SSO

Databases: MySQL, MongoDB, Redis

ORM: Sequelize

Dev Tools: Git, GitHub, Postman, Swagger, Figma

Cloud: AWS EC2, DNS Management, Cloud Deployment

Education

Virudhunagar Hindu Nadars' Senthikumara Nadar College (Autonomous)

Virudhunagar, Tamil Nadu

Master of Computer Applications (MCA)

CGPA: 6.1/10

July 2023 – Apr 2025

Sri Kaliswari College (Autonomous)

Sivakasi, Tamil Nadu

Bachelor of Computer Applications (BCA)

CGPA: 6.8/10

Aug 2020 – May 2023

Internship

Ramaussys Technologies Pvt. Ltd.

Web Development Intern

Jan 2025 – Apr 2025

Tamil Nadu, India

- Built a responsive **one-page company portfolio website** using **React**, applying **React fundamentals** in component-based development.
- Strengthened **advanced JavaScript** skills and learned and implemented **Redux** for state management through hands-on development.

Experience

Barbikan Technologies Private Limited

May 2025 – May 2026

Full Stack Developer

Tamil Nadu, India

- Contributed to **7+ SaaS products and custom software projects**, developing features across **ERP**, **CMS**, and **mobile applications** using **React**, **Node.js**, **Express.js**, and **MySQL**.
- Developed and maintained **frontend features**, **backend modules**, and **RESTful APIs** based on product and client requirements.
- Designed and worked with **database schemas**, queries, and backend integrations to support application features and business workflows.
- Managed **Git/GitHub** workflows and supported application testing, debugging, deployment, and production releases.
- Participated in **client requirement discussions** and sprint planning, and **led project teams** for selected projects within **Agile/Scrum** environments.

Projects

Traders Association Management – Mobile App

2026

Flutter, Node.js, Express.js, MySQL, Firebase

- Delivered backend for a **mobile app within a 17-day sprint**, managing the delivery team through live client demos and shifting requirements. Built **member management** and **event management** modules with **income and expense tracking**, **polling**, and **QR check-in**, including phone-number-based verification.
- Implemented **donation management** with **RBAC** and **Firebase push notifications**.

Crackers Management System – SaaS

2025

Node.js, Express.js, TypeScript, MySQL, Sequelize, Swagger/TSOA

- Architected **multi-tenant SaaS backend** with **RESTful APIs** for products, inventory, and online enquiry management, including **RBAC (Role-Based Access Control)**; migrated codebase from **JavaScript to TypeScript** and integrated **Swagger/TSOA** for API documentation.
- Migrated storefront build tooling from **CRA to Vite** and built transactional email workflows using **Nodemailer** during development and **Zoho Mail** for production, automating **user invitations** with **HTML** email templates.

Classical Internal Single Sign-On – SSO

2025

Node.js, Express.js, TypeScript, MySQL

- Built **centralized authentication system** enabling unified login across **multiple SaaS products** via shared tenant, organization, product-access, and user models using **ER-modeled** architecture.
- Authored **1,000+ lines of SQL migration scripts**, migrating live production data with **zero data loss**.

Construction & Real Estate Management System – CMS

2025

Node.js, Express.js, TypeScript, MySQL

- Built **cascading dropdown APIs** and **dashboard analytics APIs** returning structured **JSON** for hierarchical client-project-plot data, and implemented **responsive design** across UI pages with **chart and graph visualizations**.
- Implemented **multi-image uploads**, **Excel import/export**, **HTML-to-PDF** generation, and **ABAC (Attribute-Based Access Control)** to control edit/delete actions.
